IDAHO POWER COMPANY FOR AN)	CASE NO. IPC-E-03-11
ACCOUNTING ORDER REGARDING)	
TREATMENT OF CERTAIN ASSET)	NOTICE OF APPLICATION
RETIREMENT OBLIGATIONS.)	
)	NOTICE OF
)	MODIFIED PROCEDURE
)	

YOU ARE HEREBY NOTIFIED that on September 26, 2003, Idaho Power Company (Idaho Power, Company) filed an Application seeking an accounting order authorizing the Company to record regulatory assets or liabilities associated with implementation of Statement of Financial Accounting Standards (SFAS) 143. According to the Application, SFAS 143 requires utilities to recognize and account for certain asset retirement obligations in a manner different from the way Idaho Power has traditionally recognized and accounted for such costs. Specifically, if a legally enforceable asset retirement obligation (ARO) is deemed to exist an entity must measure and record the liability for the ARO on its books. The liability must be recorded at fair market value in the period in which the liability is incurred. SFAS 143 also provides that if market prices are not available, estimates of fair value can be calculated by discounting the estimated cash flows associated with the ARO to their present value at the date the liability is recorded. Idaho Power's Application asks for an accounting order authorizing the Company to (1) record, as a regulatory asset or a regulatory liability, the cumulative financial statement impact resulting from the Company's implementation of SFAS 143, and (2) record on an ongoing basis, as a regulatory asset or a regulatory liability, an amount equal to the difference between the annual SFAS 143 accretion and depreciation expenses and the annual depreciation expenses based on Commission approved depreciation rates and coal mine reclamation accruals. Idaho Power also requests confirmation by the Commission that (1) asset removal costs, in the form of negative net salvage, are currently accrued through annual depreciation expense which is recoverable in rates; (2) these costs are based on estimates of the final removal costs; and (3)

such costs are trued-up for ratemaking purposes at the time the related assets are retired and the actual removal costs are determined.

YOU ARE FURTHER NOTIFIED that Idaho Power is required to implement SFAS 143 in order to comply with generally accepted accounting principles. Due to the lack of an active market for settling AROs, Idaho Power intends to use the expected present value method to determine its ARO liabilities and offsetting assets. The accounting changes proposed by Idaho Power are supported by a series of exhibits identifying the proposed journal entries the Company believes are needed to comply with SFAS 143.

YOU ARE FURTHER NOTIFIED that the Commission has determined that the public interest may not require a formal hearing in this matter and will proceed under Modified Procedure pursuant to Rules 201 through 204 of the Idaho Public Utilities Commission's Rules of Procedure, IDAPA 31.01.01.201 through .204.

YOU ARE FURTHER NOTIFIED that any person desiring to state a position on this Application may file a written comment in support or opposition with the Commission by December 31, 2003. The comment must contain a statement of reasons supporting the comment. Persons desiring a hearing must specifically request a hearing in their written comments. Written comments concerning this Application shall be mailed to the Commission and the Applicant at the addresses reflected below:
